Acknowledge

I would like to express my gratitude and appreciation to all those that my achievement currently by directly or indirectly during 1 – month to complete this project. A special thanks to my colleagues who supports, idea suggestion and encouragement as well as promote me to coordinate my project especially in writing this report to accomplish the “SOUL” web designing.

I would like to acknowledge with much appreciation the critical role of FPT APTECH’s staffs, who create the innovated and technical environment to all the student of the center have opportunities in applying the knowledge in practice, the work team skill and so forth. Plus, a special thanks to our parents for their endless love, care and have most assistances and motivation us for the whole of our life.

As last but not least, a great deal of thanks to the supervisor of the project, Mr. Le Thanh Nhan, who is full of energy, effort in guiding class in achieving the goal in the report such as web designing languages, methods, give standard formats in website designing sector as well as encouragement to maintain progress in track. Hence, I give my appreciation to other supervisor who indicate comment and tips in understanding the lectures, presentation formats that has improved our presentation skill.

Yours Sincerely,

Team Group 02.

Synopsis

The objective of this project is to provide students with a real-life scenario where they can practice building applications using PHP/Laravel and MySQL. The main purpose is not to re-teach the concepts of PHP or Laravel, but rather to help us apply the knowledge we have already learned into developing a practical system. By doing so, we are able to revise the chapters we have studied earlier and strengthen our understanding through hands-on experience.

This project, named “SOUL”, is designed as a sample application that demonstrates how technology can bring together a wide range of knowledge and information. “SOUL” aims to provide access to content such as historic monuments, general knowledge, and even modern technology skills. It acts as a simple yet powerful tool to show how information from different domains can be gathered and presented in a structured way. Working on “SOUL” will also allow us to understand how small projects can eventually scale into larger, more robust applications.

The assignments related to this project are expected to be carried out during lab sessions, where faculty assistance will be available if required. This approach ensures that students are guided in the right direction while still encouraging independent problem solving. Finally, students are expected to carefully follow the project requirements, complete all tasks on time, and submit their work to ***eprojects@aptech.ac.in*** according to the schedule provided.

Review 01

Design Plan: SOUL	Document Name: Problem Definition	SWD/Form No.01/PD/Ver1.0
Effective Date: 20-08-2025	Version 1.0	Page No: 1 of 57

Problem Definition

Beginning with the development of Information Technology (IT), more and more people can easily use the Internet to serve their needs in daily life. Especially at present, mobile devices and the Internet have quickly become an essential part of almost everyone's lives. Thus, introducing and advertising new products has become necessary for most companies in the market.

The SOUL company stores a wide collection of books and podcasts. They want to sell their products by launching a website where people can easily find all the information about the various items available. Customers can access the website through browsers such as Chrome, Internet Explorer, Firefox, etc., to explore and purchase books or podcasts offered by the company.

On our website, customers can find books and podcasts from well-known authors, publishers, and creators. Our collection includes a variety of genres, engaging content, and competitive pricing compared with other providers in the market. If customers wish to become members of SOUL, they can easily register for an account. Becoming a SOUL member comes with several benefits.

Effective Date: 20-08-2025	Version 1.0	Page No: 2 of 57

Customer Requirements Specifications

I. CRS/Requirements Specifications

Client/Project Undertaken:	
1.	List of inputs to the system
a.	Registration/Login information (username, password, email).
b.	Personal details for profile update.
c.	Search keywords for books/podcasts.
d.	User comments on podcasts/books.
e.	Selection of books for borrow/return or bookmarking.
2.	List of outputs expected from the system
a.	Login success/failure messages.
b.	User profile saved and displayed.
c.	Search results of books/podcasts based on keywords or filters.
d.	Access to book previews or podcast audio streaming.
e.	Notifications for borrow/return or bookmark actions.
3.	Overview of processes involved in the system
a.	Users register/login to the system.
b.	Perform search and filtering of books/podcasts.
c.	View details, listen to podcasts, or preview books.
d.	Interact by commenting, bookmarking, or borrowing/returning books.
e.	Receive system responses (search results, confirmation messages, displayed content).

Admin/Project Undertaken:	
1.	List of inputs to the system
a.	Admin login credentials.
b.	Data for adding/updating/deleting books and podcasts.
c.	Approval or rejection requests for podcasts.
d.	Requests to block/unblock users.
2.	List of outputs expected from the system
a.	Successful access to the admin dashboard.
b.	List of users, books, and podcasts.
c.	Statistical reports (number of users, books, podcasts, activity logs).
d.	Confirmation messages for CRUD operations or approvals.
3.	Overview of processes involved in the system
a.	Admin logs into the management dashboard.
b.	Manage users: view list, block/unblock accounts.

Date		

Design Plan:	Document Name: Customer Requirements Specifications	SWD/Form No.02/CRSVer1.0
Effective Date: 20-08-2025	Version 1.0	Page No: 3 of 57

c.	Manage books: add, update, delete records.
d.	Manage podcasts: approve, edit, delete items.
e.	Generate and review statistical reports from the dashboard.

	Prepared by (Student) Project Group No: 02	Approved by (Faculty) LE THANH NHAN

Date		

Design Plan:	Document Name: Customer Requirements Specifications	SWD/Form No.02/CRSVer1.0
Effective Date: 20-08-2025	Version 1.0	Page No: 4 of 57

Hardware and software required for implementing the project	
a.	Personal computer/laptop (Core i5 or higher, 8GB RAM, 256GB SSD)
b.	Internet connection
c.	Operating System: Windows 10 or later
d.	Development Tools: VS Code
e.	Server: Laragon
f.	Database: MySQL
g.	Framework: Laravel
h.	Browser: Chrome / Edge

	Prepared by (Student)	Approved by (Faculty)
	Project Group No: 02	LE THANH NHAN

Date		

Design Plan:	Document Name: Customer Requirements Specifications	SWD/Form No.02/CRSVer1.0
Effective Date: 20-08-2025	Version 1.0	Page No: 5 of 57

II. CRS/Customer Acceptance Criteria

S.No	Customer's Acceptance Criteria
1	Given a new user without an account, when they register with valid details, then the system creates the account successfully.
2	Given a registered user, when they enter valid credentials to log in, then the system grants access to their profile.
3	Given a registered user, when they enter invalid credentials, then the system shows an error message.
4	Given a logged-in user, when they update their profile, then the system saves and displays the updated information.
5	Given a logged-in user, when they search for a book by title or author, then the system displays relevant search results.
6	Given a logged-in user, when they click on a podcast, then the system plays the audio and shows details.
7	Given a logged-in user, when they bookmark a book, then the system saves it to their personal list.
8	Given a logged-in user, when they post a comment on a podcast, then the system displays it under the podcast details.
9	Given an admin user, when they block a customer account, then that customer cannot log in anymore.
10	Given an admin user, when they view the dashboard, then the system displays statistics of users, books, and podcasts.

III. Project Plan

1. Project Details	
+	Name of the Client: SOUL
+	Date of Project Plan: 20-08-2025
+	Project Vision/Objectives:
a.	This project aims to build an integrated web system for managing users, books, and podcasts.
b.	Support book searching, borrowing, returning, podcast streaming, and management through an admin dashboard.
c.	Deliver a centralized platform that enhances access to learning and recreational resources.
+	Scope:
a.	Authentication & User Management
	+ Register/login
	+ Profile management, password reset email.
	+ Admin: list/block/unblock users (dashboard)
b.	Podcast
	+ Backend: CRUD API, upload/download audio.
	+ Frontend: listing, filtering, pagination, detail page with comments
	+ Admin: approve, edit, delete podcasts (dashboard)
c.	Books
	+ Backend: CRUD, borrow/return, bookmark.
	+ Frontend: book listing, detail page, preview reading.
	+ Admin: generate reports (users/books/podcasts) and activity logs.
+	Our understanding of the client organization:
a.	The client requires a centralized platform to manage books and podcasts.
b.	An admin dashboard is essential to monitor users, control content, and track system logs.
+	Project Organization with Responsibilities and Authorities:
a.	Student Team: Development, Testing, Documentation
b.	Faculty (Supervisor): Guidance, Approval, Review
c.	Admin Role in System: Manage users, books, and podcasts
2. Project Initiation/Requirement Documents	
a.	Customer Requirements Specification
b.	Software Design Document
c.	Database Schema & API Contracts
3. Deliverables	
a.	Complete source code (Laravel + NextJS + MySQL).
b.	Project documentation including report, design, API guide, and user manual.

	Prepared by (Student)	Approved by (Faculty)
	Project Group No: 02	LE THANH NHAN
Signature		
Date		

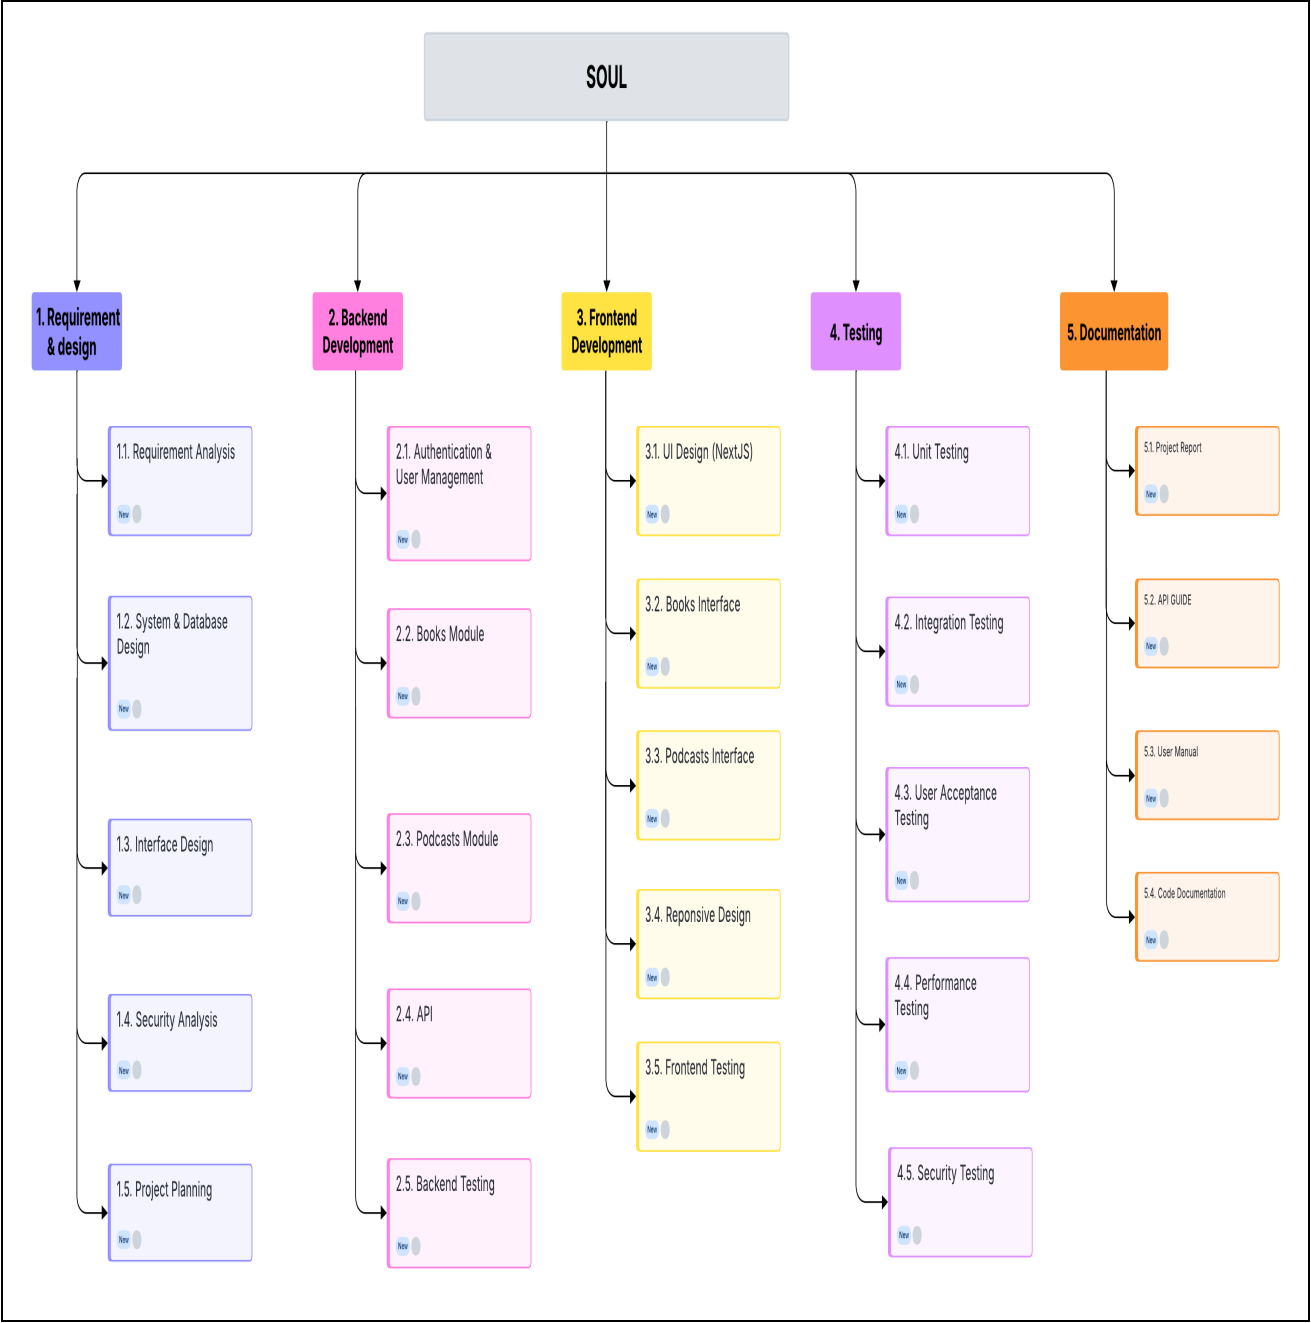

Design Plan:	Document Name: Customer Requirements Specifications	SWD/Form No.02/CRSVer1.0
Effective Date: 20-08-2025	Version 1.0	Page No: 7 of 57

4. Project Dependencies	
a.	Frameworks: Laravel (backend), NextJs (frontend)
b.	Database: MySQL
5. Major Project Milestones	
a.	Week 1 – Requirement analysis and system design.
b.	Week 2 – Backend development (Authentication, Books & Podcasts APIs).
c.	Week 3 – Frontend development (UI + integration with backend).
d.	Week 4 – Testing, documentation, and final submission.
6. Quality Plan	
+	Review Activities:
a.	Weekly code reviews to ensure coding standards.
b.	Documentation review before submission.
c.	Regular progress review meetings.
+	Testing Activities:
a.	Unit testing for backend and frontend modules.
b.	Integration testing between components.
c.	User Acceptance Testing
+	Backup and recovery strategies:
a.	Daily backup of source code to GitHub repository.
b.	Maintain a local backup copy on external storage.
c.	Recovery plan: restore from latest stable backup in case of system failure.

Review 02

Design Plan:	Document Name: Architecture and design of the Application	SWD/Form No.03/ARD/Ver1.0
Effective Date: 20-08-2025	Version 1.0	Page No: 10 of 57

Architecture and design of the Application

I. Application Architecture

1. Layers (Layered Architecture)

1.1. Presentation Layer (Frontend – Next.js/React)

- Provides UI for users, staff, and admin
- Calls backend APIs (via axios/fetch)
- Manages authentication token/session
- Main pages:
 - ◆ Register/Login, Profile management
 - ◆ Podcast list/detail
 - ◆ Books grid/detail with bookmark, preview
 - ◆ Admin Dashboard

1.2. Application Layer (Backend - Laravel API)

- Handles business logic (Controllers + Services)
- Authentication & Authorization
- CRUD operations: User, Podcast, Book, Logs
- Business rules: borrow/return books, approve podcasts, block/unblock users
- Provides RESTful API for frontend

1.3. Data Layer

- Stores users, books, podcasts, logs, bookmark records
- Supports full-text search (for Books/Podcasts)
- Relational database schema with foreign keys

2. Roles

User: Register, login, edit profile, view books, view podcasts, bookmark books

Admin: Full access – manage users, block/unblock accounts, view dashboard stats

	Prepared by (Student)	Approved by (Faculty)
	Project Group No: 02	LE THANH NHAN
Signature		
Date		

Design Plan:	Document Name: Architecture and design of the Application	SWD/Form No.03/ARD/Ver1.0
Effective Date: 20-08-2025	Version 1.0	Page No: 11 of 57

3. Workflow Summary

- User logs in → JWT token stored in frontend
- Frontend sends API requests with token → Backend checks authentication/authorization (middleware)
- Backend processes request and interacts with Database
- Admin uses dashboard to monitor users, podcasts, and books
- Users search, bookmark, borrow/return books, listen to podcasts

I. Homepage:

The screenshot shows the homepage layout for 'SOUL'. At the top, there is a header bar with the 'SOUL' logo on the left and navigation links 'UPGRADE', 'PROFILE', 'LOGIN/REGISTER', and a shopping cart icon on the right. Below the header is a search bar. The main content area is divided into a top navigation bar with links for 'Home', 'Podcasts', 'Books', and 'About'. Below this, there are three large rectangular sections: 'Carousel', 'NEW ARRIVAL BOOKS', and 'NEW ARRIVAL PODCAST'. At the bottom, there is a 'FOOTER' section.

Description: The main entry point of the website, showing an overview of both Books and Podcasts includes a header (main menu, podcasts, books, profile, search, order), a sidebar with categories/filters, and a footer.

From: Accessed from the Home menu (top navigation).

To: Navigate to Books Page, Podcasts Page, Profile Page, Login/Register, Order Page

FOOTER

Description: Displays detailed information about a selected podcast, including the title, host/author, category, release date, and description. The layout highlights the podcast cover image, playback controls (play, pause, forward, rewind), and options such as adding to favorites or saving to playlist. Additional sections may include a list of episodes or related podcasts.

	Prepared by (Student)	Approved by (Faculty)
	Project Group No: 02	LE THANH NHAN
Signature		
Date		

Design Plan:	Document Name: Screen shots	SWD/Form No.07/SS/Ver1.0
Effective Date: 20/08/2025	Version 1.0	Page No: 35 of 57

From: Accessed from the Podcasts page (by selecting a podcast card) or links from Homepage, My Library, or search results.

To: Navigate to related podcast details, back to the Podcasts listing, or other sections (Home, Books, Profile, Order).

VIII. User Profile

The diagram illustrates the User Profile page layout. At the top, there is a header bar with the 'SOUL' logo on the left and navigation links 'UPGRADE', 'PROFILE', and 'LOGIN/REGISTER' on the right, along with a shopping cart icon. Below the header is a search bar. A secondary navigation bar contains links for 'Home', 'Podcasts', 'Books', and 'About'. The main content area is divided into two columns. The left column contains a vertical list of links: 'My account', 'Personal library', 'Order', 'Transaction history', and 'Customer service'. The right column contains the 'Personal Information' and 'Account Settings & Security' sections. The 'Personal Information' section includes input fields for 'User Id:', 'User Name:', 'Email:', 'Full Name:', 'DOB:', and 'Gender:'. There is also a placeholder for an avatar and a 'Change Avatar' button. At the bottom of this section are 'Button Update' and 'Button Cancel'. The entire page is enclosed in a footer bar labeled 'FOOTER'.

Description: User's personal area includes User Info (avatar, edit profile), User Stats (Books saved, Podcasts listened), and My Library (saved Books & Podcasts).

From: Accessed from Home menu (top navigation).

To: Navigate to other sections (Home, Books, Podcasts, Order).

IX. User Profile Account Settings & Security

The diagram illustrates the 'User Profile Account Settings & Security' interface. At the top, there is a header bar with the 'SOUL' logo on the left, and navigation links 'UPGRADE', 'PROFILE', and 'LOGIN/REGISTER' on the right, accompanied by a shopping cart icon. Below the header is a search bar. A secondary navigation bar contains links for 'Home', 'Podcasts', 'Books', and 'About'. The main content area is divided into two columns. The left column features a vertical menu with buttons for 'My account', 'Personal library', 'Order', 'Transaction history', and 'Customer service'. The right column contains the 'Personal Information' and 'Account Settings & Security' sections. The 'Personal Information' section includes input fields for 'Email:' and 'Phone:', and a 'Button Change Your Password' below them. The entire interface is topped by a 'SOUL' logo and navigation links, and bottomed by a 'FOOTER' section.

Description: Allows users to view their email and phone number

From: From My Account

To: Can lead to subpages such as Personal Information, Account Settings & Security, Change Password, Personal Library, Orders, Transaction History, and Customer Service.
